

Please support me!

This September, I'll be walking 25 kilometres, barefoot
– in solidarity with women in Ethiopia living with
devastating childbirth injuries.

Every step I take is in support of a woman on her journey to healing
– restoring her health, dignity, and hope for the future. The challenge is to:

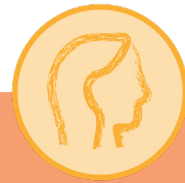

Walk 25 km

The average distance
a women walks to
reach medical care
in Ethiopia.

Raise \$1,500

The cost of a standard
fistula repair surgery
at one of Hamlin's six
hospitals.

Change a life!

Restore the health
and dignity of a
woman living with
obstetric fistula.

Obstetric fistula is a preventable and treatable injury caused by prolonged, obstructed labour without access to medical care. Hamlin Fistula Ethiopia works to find, treat, and rehabilitate women living with this condition – completely free of charge.

Your support will help fund this life-changing work.

**Please scan the QR Code and search for
my fundraising page to make a donation in
support of my Barefoot Walk. Thank you!**
